BÜLENT CEYLAN has been dominating German stages for more than 25 years. From his origins as one of Germany's now most famous comedians to performing at Wacken Open Air following his musical debut, *Ich liebe Menschen* (2024), his ascent continues onward and upward alongside Napalm Records. This partnership brings together what belongs together—**BÜLENT CEYLAN** is no longer just a fan of metal.

The Mannheim native wrote his first program in 1998. Since then, his stages have grown (as impressively as his hair), expanding into a wide-ranging and dynamic repertoire. Today, he's known not just as a comedian, but also as a presenter, author, actor, voice actor – and, of course, a musician. Anchored in German-language industrial metal but embellished with duets ranging from medieval rock stars Saltatio Mortis to living legend Peter Maffay, his first album was released in 2024.

Alongside his signature heavy sound, **BÜLENT CEYLAN** once again proves his sharp social insight through his lyrics. The track *“Ich liebe Menschen”* ("I Love People") boldly takes on issues like online hate and racism with a strong stance. He also takes supporting important charity work seriously, spreading the word and still holding strong to his trademark wit. One thing should be clear to all metalheads moving forward: **BÜLENT CEYLAN** doesn't just headbang for laughs – he's metal to the core!

CEO Thomas Caser about BÜLENT CEYLAN:
