

EVERGREY
Architects Of A New Weave
Release: June 5, 2026

From Ashes to Architects – EVERGREY Expand Their Journey Through Vibrant Dismalness With 15th Studio Album!

EVERGREY, Gothenburg’s masterminds of melancholia, offer up another outburst of beautiful darkness and turn their inner fire into something unstoppable: their intense fifteenth album, ***Architects Of A New Weave***, will be released on June 5, 2026 via Napalm Records, just days before the band takes the stage as special guest to the undisputed kings of heavy metal, Iron Maiden, for two shows on their Run For Your Lives World Tour.

This is the wake-up call you didn’t know you needed: a plunge into thinning air, burning worlds, and lingering guilt—only to break free with fierce momentum. The album refuses to wallow. It ascends—fast, heavy, and cinematic. But it refuses to hide in the dark. It rises: fast, fierce, and utterly transformative. Among other exclusive formats, ***Architects Of A New Weave*** comes with a bonus album, containing bonus tracks “*Heights*” and “*One Heart*”, as well as an album mix of the previously released standalone single “*OXYGEN!*” (2025). Additionally, it features a demo version of “*Longing*”, instrumental tracks of “*Leaving The Emptiness*”, both new songs, as well as a live version of “*Falling From The Sun*”, the hit single off the previous record, ***Theories of Emptiness*** (2024) and continuation of “*Ominous*” off of ***A Heartless Portrait (The Orphean Testament)*** (2022).

Dive into ***Architects Of A New Weave***’s standout tracks like “*The World is on Fire*”, “*Leaving The Emptiness*”, “*Heaven*”, and “*The Prophecy*”, and the breathtaking title anthem “*Architects Of The New Weave*”. Their choruses break through like sunlight piercing storm clouds: enormous, cinematic melodies that pull you upward, riffs with genuine weight and bite, and vocals dripping with raw, unflinching truth. In one breath, you’re shouldering buried longing; in the next, you’re weightless, fearless, endless. Scars transform into badges of survival, fractures fuel reinvention. In the second half of the album, fellow Gothenburg icon Mikael Stanne (Dark Tranquillity, The Halo Effect, Grand Cadaver, Cemetery Skyline) joins Tom S. Englund in vocal duties for “*A Burning Flame*”, the voices of the two scene legends intertwined compellingly. ***Architects Of A New Weave*** was produced by Tom S. Englund and Vikram Shankar, with a stellar mix by Adam "Nolly" Getgood.

Chaos doesn’t claim victory—you do. You step forward as the weaver, rethreading belief, identity, connection, and the very shape of tomorrow into something stronger, brighter, unbreakable. This is melodic, progressive, dark metal at its most massive and intimate: heavy enough to shift mountains, anthemic enough to make you raise your fist and truly believe it. It carries one unshakable truth straight to your core: Nothing—not pain, not darkness, not any storm—gets to label you broken. You’re the power that gathers the fragments and forges real beauty from them. Dream weavers rising. Architects are stepping up to claim what comes next. If you’ve ever felt that inner tug—quiet or roaring—to rewrite your story on your own terms, with zero apologies and complete ownership, this is the soundtrack that turns the urge into certainty. Your battle cry. Your hymn for renewal, creation, and finally stepping into the person you’re destined to be. Whether it launches **EVERGREY**’s boldest era yet, stands as a fierce standalone declaration, or serves as the pivotal bridge chapter that redefines their path, ***Architects Of A New Weave*** is pure cinematic motivation—ready to charge your playlist and propel your momentum forward. It’s as though **EVERGREY** don’t merely survive adversity—they rise and expand because of it. Every challenge, every setback, every wound seems to become the very oxygen that fuels their music. The darker the storm that once threatened to break them, the more

powerfully each note draws breath from that same pain, transforming what hurt them yesterday into the soaring, living heart of their songs today. ***Architects Of A New Weave*** seals it: we are no longer victims of the night, but creators of new skies, new beliefs, and entirely new heavens. Grab it now. Let it arm you. This isn't just an album – it's the sound of you seizing control and building what's next.
