

## NERVOSA

### ***Slave Machine***

Release Date: April 3<sup>rd</sup>, 2026

#### **Metal Icons NERVOSA Crank Up the Power on Furious New Full-length *Slave Machine*!**

**NERVOSA** unleashes another round of fury on their new album, ***Slave Machine***, out April 3, 2026 via Napalm Records. Their sixth album shows the Brazilian modern thrash metal band releasing their inner beasts at staggering speed and with formidable emphasis. Having performed at the biggest metal festivals worldwide, from Wacken to Hellfest, and making a lasting impression on fans and critics alike, **NERVOSA** aims to consolidate their standing as genre frontrunners. With founding guitarist Prika Amaral established as their new singer with their previous record, ***Jailbreak*** (2023), they tear through the scene with the force of a sledgehammer. Once again working with producer Martin Furia, the women bridge the gap between old-school power and critical modernity.

Twelve new songs show the five-piece exploring their crushing style in an enhanced way. Opening “*Impending Doom*” builds up menacingly, using thunderous riffs and jagged drums to establish the women’s dominance in the scene. The title track, “*Slave Machine*”, instantly turns up the speed and adds a surprising alternative bridge to the already catchy chorus, showing a slightly different side of the metal powerhouses. The following “*Ghost Notes*” unleashes a storm of heavy, yet easily recognizable riffs, driven by impelling drums and the ever-so-furious vocals of Prika Amaral, crowned by an astounding guitar solo. Through “*Beast Of Burden*”, **NERVOSA** shows their harshest side, while “*You Are Not A Hero*” offers a grand chorus, gifting ***Slave Machine*** a true anthem. “*Hate*” unfolds with raw brutality, and “*The New Empire*” looks for destruction with melodic precision. “*30 Seconds*” rises up to new heights, while “*Crawl For Your Pride*” combines **NERVOSA**’s trademark social criticism with gut-punching songwriting. Throughout “*Learn Or Repeat*” and “*The Call*”, the band once again sprinkles in some pieces of modern groove with old-school vibes before ***Slave Machine*** rears up one final time on the threateningly sinister “*Speak In Fire*”.

**NERVOSA** erupts as a metal volcano with their latest record. Never settling, always exploring, one staggering riff after another, ***Slave Machine*** is a crushing statement—it comes, sees, and conquers.
