**Speed Metal Heroes STÄLKER surprise with two brand new songs!**

Speed metal trio **STÄLKER** are on a blazing roll with two full length releases under their bullet belts. Now in the Year of the Beast, 2022 marks the year for another batch of Necronomicon-induced incantations from **STÄLKER**, as the band releases a 12" Double Single as their 4th offering, ***Cranking Evil!*** The release will be unveiled to the world on November 4, 2022 via Napalm Records. Eons of evil will spew from the cauldron as Daif, Nick, and Chris have cooked up piercing cuts like *"Ripped to Pieces"* and *"Kneel & Worship"*. There is no stopping this speeding train to Hell that **STÄLKER** is conducting! As said on *"Ripped to Pieces"*: *"You'll know his name. With no place to hide. Written in fire."*

The group's 2017 full length debut, ***Shadow of the Sword***, brought a new voice to the speed metal scene as the band battered their way through the underground metal world with 10 riff-packed tracks of pure Judas Priest, Motörhead, and Venom worship! Soon after, fans rejoiced as the band released their heavily awaited sophomore album, ***Black Majik Terror***, in 2020. The album brought another onslaught of pure speed metal cacophony filled with more power and more riffs, enchanting metalheads and rock n' rollers to open up mosh pits left and right!
