

# YEAR OF THE GOAT

This summer, Swedish occult rock masters YEAR OF THE GOAT return with their brand new opus *Novis Orbis Terrarum Ordinis*. Evoking a musically, sinister reality that surrounds us in this world with its majesty. YEAR OF THE GOAT add a fire to the chaos with the band's third studio album. *Novis Orbis Terrarum Ordinis* showcases YEAR OF THE GOAT's roots in the darker sounds of the 60's and 70's, they have never sounded so bracing before. Captivating tracks such as *Avaritia* or the "superb" *Superbia* indulge in the finest occult rock full of blackened heart's blood and elegiac melody lines that will haunt your dreams! In these times of global upheaval, *Novis Orbis Terrarum Ordinis* will celebrate your sins "[...]and rejoice in the perverseness of evil": The YEAR OF THE GOAT is now!
